MESSAGE

It gives me immense pleasure to launch the official website of Principal Controller of Defence Accounts (Northern Command).The website is developed by National Informatics Centre, Jammu, under the Ministry Of Communications. This is in replacement and up gradation of the previous one. The website has become bilingual now in full compliance with the official language policy of the Government of India.

In the context of growing accountability and transparency in the governance, a website is an important and essential instrument of administration. It provides all the important information on the basic mandate, functionalities and on-going status of various aspects of its functioning. These include amongst others, mandatory disclosures as per the Citizens Charter, Grievance redressal, official language policy, Right to Information Act etc. Any citizen, who might be interested in the roles, works and responsibilities of this organisation can directly access to them through the website.

It is matter of satisfaction and happiness that a lot of efforts have gone into the successful design and development of the website. I sincerely congratulate all those who are involved in this great and important endeavour. The website will continue to get improved in future as well. Suggestions in this regard are always welcome.

Jai Hind.

Principal Controller
